A. The County hereby finds that the following are R.S. 2477 rights-of-way, established in accordance with the definitions set forth above:

B. The County shall not be deemed to consent or have consented to the exchange of any R.S. 2477 right-of-way unless a formal written resolution specifically so stating has been passed at a duly called public meeting of the County Commission. - V. The County and the owner of the servient estate shall exercise their rights without unreasonable interfering with one another. In furtherance of this:
 - A. Prior to conducting maintenance or construction activities, the County may:
 - 1. perform on-site inspections and weigh factors relating to safety, including the physical characteristics and configuration of the R.S. 2477 right-of-way and the volume and type of traffic on the R.S. 2477 right-of-way; and
 - 2. consult with transportation experts who have expertise to make and evaluation of the relative dangerousness of R.S. 2477 rights-of-way within their jurisdiction.

 - B. Construction or maintenance within the scope of the right-of-way which will result in significant new disturbance of servient land shall be performed after notice to the servient land owner.

 - C. The County may accept and take into account comments from servient land owners on any design feature or construction method which the landowner believes may result in unnecessary or undue degradation or derogation of the servient lands or significantly impact resource values which are not necessarily subject to the right-of-way.

- VI. Public comment:

- A. It is in the best interests of the County and the public that facts relevant to the County's ownership or management of its rights-of-way accepted under R.S. 2477 or through public use be raised in a timely manner and it is a fundamental principle of due process and fairness that any person having knowledge relevant to such facts bring them to the attention of the County when an opportunity for public input is provided.
